

Injection Aluminium Indirect Luminaires

Mechanical Specifications

Corrosion and wear-resistant aluminium injection body and pole with electrostatic polyester powder coating. Fuse connection terminal enclosed under gasketed cover. Stainless steel fittings. Silicone gasket fit for temperature changes and environmental conditions.

Optical Specifications

High-purity aluminium cover with electrostatic powder coating. IK08 standard compliant, heat and impact resistant, highly transmissive, clear tempered glass

Electrical Specifications

compliant low-loss magnetic ballast. series igniter. EN60238 standard compliant lamp holder. 1,5mm² cross cable. Hardware compartment designed to function flawlessly under ambient temperature

Options

Different RAL-code electrostatic powder coating. Magnetic ballast with thermal cut-out application. Timer series igniter application. Daylight sensitive photocell application. Adjustable magnetic ballast application
